

Drawing Class

1 semester – ½ credit

Mrs. Atkinson

Students will explore elements of drawing through use of different drawing techniques, styles and materials. This course emphasizes drawing not only as an art form and means of personal expression, but also as a way to increase visual literacy; understanding what and how we see. Students will learn techniques in observation to create drawings from life. In keeping attention on two-dimensional work, students typically work with several media such as pen and ink, pencil, chalk, oil pastels, and colored pencil.

Student Supplies:

Pencils
Erasers
Small pencil sharpener

Evaluation Procedure:

Projects
Effort
Creativity
Time on task

Class Expectations:

Be creative
Be respectable
Follow directions
Be on task

- Class Rules:**
