

Classroom Projector

On

On remote, press

Off

On remote, press  twice. Note that when you turn off the projector in this way, to turn it back on, you must wait until the green light on the projector stops blinking. If you press Standby only once, it will not turn off.

To get a black screen:

On remote, press

Can't see computer screen?

On remote, press

Magnify what's on the screen

On remote, press

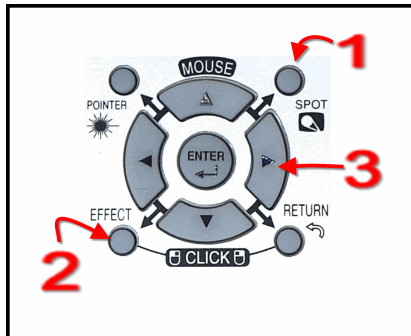

Adjust volume for movies or presentations

Use your computer speakers

Note: Volume controls on remote are not connected to any speakers so will not work

To spotlight a place on the screen

Windows® Internet Explorer™ 7
