STEMAPALOOZA

Business partners with the Westlake City School District came together for two days in December to make presentations to Lee Burneson Middle School seventh and eighth graders concerning science, technology, engineering and mathematics (STEM).

The idea was to provide students with real-life examples of how science, technology, engineering and mathematics are used in the workforce.

Participating business partners included Banyan Technology, Energizer, Heery International Inc., Metcalf & Eddy of Ohio, Polymer Diagnostics and Z-Space Technologies. The presentations were a combination of lecture and hands-on activities, including instruction in using specialized calculators and what it takes to ship an Xbox from the factory to your home.
